

Tim Martin, The DAY

BOOTS

Consequences of War on Iraq

Tuesday, July 20, 2004
12 noon - 1:00 pm

Soldiers' Memorial
New Haven Green

Over 800 pairs of American soldiers' boots and empty Iraqi civilian shoes provide a vivid memorial to the war's direct victims, a searing exposure of the lies told to the U.S. public to justify the war, a compelling outline of what the war is costing us at home. Read the names of our sacrificed youth. Contribute your voice to changing our country's course toward peace.

Shatters the claim that the war has made America safer and challenges us to confront our fears and let our dreams, not our nightmares, shape our collective future.

In New Haven,
sponsored by
